RESPONDERS' COMMENTS FOR EC 201 007 (FS21)**Question 6: Please provide any comments concerning this course and/or instructor below.**

- An organized instructor who explains concepts clearly and effectively.
 - enjoyed the class!
 - Enjoyed the course and loved Professor Stubblefield's teaching style.
 - Good professor
 - Great course, looked forward to class every week
 - Great course. I learned a lot and the teaching was informative.
 - Great instructor; always came in with positive energy and enthusiasm! Very knowledgeable individual with great presentation skills. This was a class I felt excited to attend.
 - Great Teacher
 - He is fantastic at his job and is one of the best professors ive ever had in my life, great at teaching and has fantastic enthusiasm.
 - He was a good instructor and fully explained each concept with examples.
 - I enjoyed EC 201 with Professor Stubblefield very much. He made learning enjoyable and interesting.
 - I felt that although the course moved faster than I wanted it to, because of going to office hours, I was able to stay on top of the subjects that we covered. I am very happy that my professor was able to explain the topics in detail and address any concerns that I have with the materials during office hours.
 - I had a great time in this class as it was very engaging and interesting.
 - I really enjoyed taking this class with professor Stubblefield, he made the content fun and interesting.
 - I recommend this professor to all of my friends planning to take 201
 - I understand that it is challenging to teach econ to students who do not intend to go down the econ career path; however, it felt like this course was catered to people who don't need things to be "dumbed down" for them. I am not a math-science person, and the pace of the teaching did not work for me (too fast). On the other hand, professor Stubblefield is a kind, brilliant professor, and I think he should be teaching higher-level courses rather than intro classes. Part of my shortcomings falls on me because I never went to office hours (I took 16 credits this semester, and econ was the lowest out of my four classes), but the pace partially resulted in my downfall. Great Professor, he is really passionate about what he is teaching.. it would be better if he taught upper-level courses.
 - Instructor made course engaging. However, he has a tendency to be soft-spoken and it was often hard to hear him, even after asking him to speak up. Perhaps providing a microphone for this instructor would help.
 - Instructor taught very well. Helped improved my spots in learning. Taught the material very well and gave us many chances to help us improve our grade.
 - Its very hard to learn any of the material effectively with the pace the course has and the amount o information we are expected to take in.
 - Mr. Stubblefield did a fantastic job at teaching EC201. He made class fun to go to and he did a great job at teaching us the course materials. There were a few times where he mistakenly told us a incorrect answer to a question was correct but he was able to correct himself. Overall, I think it would be in the University's best interest to make sure Mr. Stubblefield keeps teaching this course.
 - N/A
 - Need more supporting external links.
 - none
 - Prof Stubblefield was a phenomenal professor, he's probably my youngest professor but he's easily the best one I had this semester. He was punctual, seemed interested in what he was teaching, was helpful with examples and material taught, and gave a perfectly manageable work load.
 - Professor Stubblefield was very accomidating when I had Covid and the Flu this semester and allowed me to make up in class participation points for several missed classes due to Covid, which was a big portion of my overall grade.
 - Professor was very relatable, very engaging
 - Stubblefield has easily been one of the best instructors that I have had in my limited time at Michigan State. He was phenomenal when it came to motivating students and demonstrating examples of how course content had real world impacts and impacted our daily lives.
 - The instructor explained the material very.
 - The instructor was excellent and engaging.
 - The professor did a great job keeping me engaged in the material even though I am not interested in economics. I really did not like how close together the desks were, especially because we are in a pandemic. Also the classroom was longer than it was wide, which I think creates a disconnect for people at the back of the room. I had to sit in the front row to stay engaged and awake. However, Stubblefield did a good job accomodating to this, and he was always checking to make sure everyone was understanding the material.
 - The professor seemed very enthusiastic about teaching economics however I don't think I grasped an understanding of the material as well as I would have liked to. Maybe more simplified slides could help.
 - Well-paced class, Friendly professor, and never boring
-
